

HSEM BULLETIN

Health and Safety Certification and Assurance System Implementation

Who needs to read this?

All Curtin University Staff

Background

Curtin University is currently accredited against the WorkSafe Plan and Australian/New Zealand Standard 4801 for its Health and Safety Management Systems. To ensure the ongoing maintenance of these certifications, continual improvement of the Curtin health and safety systems is required.

Information

Health, Safety and Emergency Management have recently introduced a range of guidance documents and templates that faculties and areas can use to assist with their internal health and safety assurance.

- Health and safety certification and assurance plan
- External health and safety assurance guideline
- Internal health and safety assurance guidelines
- H&S management plan template
- Objectives and targets template

These documents and templates are located on the certifications and assurance tab on the HSEM webpage.

In addition to these guidance documents, the internal assurance self-assessments are currently being tested in the CHARM Audit Register. Once finalised, these assessments will be allocated to relevant staff in each faculty or area for completion.

HEALTH, SAFETY AND EMERGENCY MANAGEMENT

Promoting a safer place to work and study

Who do we call with questions?

If you have any queries, or require assistance with administering the internal assurance system for your faculty or area please contact Health, Safety and Emergency Management on 9266 4900 or email healthandsafety@curtin.edu.au.
